

# Land surface Interactions with the Atmosphere over the Iberian Semi-arid Environment

**What:** First LIAISE WG1 meeting

**When:** 27 Jan 2022 at 16:00 (CET)

**Duration:** 1 hour

**Platform:** *Zoom*: link will be provided before the meeting

**Program:**

- 16:00 (CET) - Opening
- 16:05 - Dani Martinez Villagrasa, Mary-Rose Mangan and Oscar Hartogensis: Eddy Covariance Fluxes
- 16:30 - Hugo de Boer: Ecophysiology data overview and first results
- 16:50 - Open floor: discussion, announcements, updates
- 17:00 - Closure

As this is the first meeting, the contributions are very much driven by data and data-organization. Note that the talk about Eddy Covariance Fluxes is organized as a discussion session that should be relevant for both modelers and experientialists. We'll use a *Mentimeter* questionnaire to steer the discussion.
